Modify Your Home To Age In Place

We will gladly speak to your business, organization, church, or conference on Modifying Your Home to Age in Place.

In this workshop seniors, family members, and caregivers will gain an understanding of basic modifications and solutions to make a senior's home safe, accessible, and functional.

Many seniors desire to stay at home. This is why they are creating a safe environment in their home.

There are ways to help seniors manage their home and personal needs so they can remain safe and independent.

In this workshop you will learn:

- Overview of basic home maintenance & challenges
- Modifications that make life easier
- Unique or specific needs that many will face
- Discuss priorities for a safe and functional home
- Does your home fit your current needs?
